Performance comparison between the CLEAR/SP-J series and other major hair removal machines can be seen. Please see in case you wonder how to select hair removal machine for business use.

*1 High level output for beard is 0.36 Yen per shot

*2 No need reciprocating irradiation, as CLEAR SP-Jef creates steady and continuous "removing light"

*3 In case of 2 reciprocal cycles of irradiation

*4 Heat storage mode: 0.13 Yen for 1,000,000 shot in case of 3 reciprocal cycle

*5 Because of No rapid-cycles

*6 In case of area of Tokai, Kanto and Kansai

*7 It is the price in Japan
